Let your mind float away on this paradise called North Island

Bruce Simpson – the face of North Island

As Managing Director Bruce Simpson is the pivotal face of North Island. In the early 2000s, he moved to North Island as new GM and made a decisive contribution to that North Island is nowadays acclaimed as one of the most exceptional destinations around the globe and as a role model for sustainable eco-tourism worldwide. As MD Business Development he has a mandate to investigate, negotiate and develop new opportunities for the company in Africa. Or, in short: Whenever something ground-breaking emerges, is Bruce involved at the forefront.

About North Island

Private island resort North Island, found in the inner islands of Seychelles, is a place of exclusive luxury within an exquisite wilderness sanctuary. North Islands provides all who seek a private and unspoilt tropical retreat with opulent yet hand-crafted villas, pristine and powder-white sands, a turquoise ocean and a splendid vegetation. And yet North Island is not only acclaimed for its barefoot opulence – it is, dubbed the Noah's Ark project, a sanctuary where critically endangered Seychelles fauna and flora are being reintroduced.
